EXECUTIVE SUMMARY

This publication provides a comprehensive picture of Middlebury College's fall 2006 student body. As such, this profile is divided into several different parts. The sections include details on students enrolled on campus, students enrolled in study abroad programs affiliated with Middlebury, students enrolled in study away/abroad programs not affiliated with Middlebury, and totals for the entire enrolled student body respectively. Details on visiting undergraduate students as well as graduate students studying abroad in Middlebury programs are included as well.

All data is based on the fall enrollment census. Much of the information in Section I, which details on-campus student enrollment, is used for federal reporting which is based on federal definitions.

For convenience, the following are some quick comparisons and summary statistics:

GENERAL NOTES AND DEFINITIONS:

The following are some general notes and definitions to help clarify data in this profile:

1. By federal definition, a person included in the calculation for “US Citizen” is a US citizen, dual citizen, or permanent resident. Canadian students are international students. The National Center for Education Statistics defines and collects data through annual surveys in IPEDS, the Integrated Postsecondary Education Data System.
2. An on-campus enrolled student is one whose status is “active student (AS)”. An enrolled student in a Middlebury affiliated study abroad program is one whose status is “Leave Middlebury (LM)”. Similarly, an enrolled student in a non-Middlebury affiliated study away/abroad program is one whose status is “Leave non-Middlebury (LN)”. Entire enrollment simply includes students in all three of these categories.
3. Numbers of students in each class has been derived from the graduation year (grd_yr) parameter in BANNER.
4. Notes on individual tables, charts, and graphs are designed to add further clarification. For instance, though they are “enrolled” this fall, foreign exchange students have been extracted in many data in this profile as they are short-term visitors to the campus.
5. This profile does not include data from the summer Language Schools or the Breadloaf School of English.
6. Please feel free to contact Jane Kimble, Assistant Director of Institutional Research on x5351 (jkimble@middlebury.edu) with any questions or feedback.

I. Middlebury Campus

A. ENROLLMENT

Middlebury, like all colleges, is required by the federal government to report on fall enrollment statistics. These figures are reported annually and appear in college guidebooks and publications. For purposes of the federal government reports, all full-time and part-time Middlebury students are counted, with the exception of students who are on leave (studying abroad or at other institutions). All students taking courses for credits must be reported, including exchange students. The fall enrollment census is taken each year at the end of add-drop and no later than October 15th by requirement of the federal government. The National Center for Education Statistics defines and collects data through annual surveys in IPEDS, the Integrated Post Secondary Education Data System.

2. These figures include 254 international students. Thirteen of these students are exchange students and eight are teaching assistants.
3. By federal definitions, these figures do not include Middlebury students who are away from campus, studying away/abroad in either Middlebury or non-Middlebury programs.

4. A total of 2,372 degree-seeking students and 34 non-degree seeking students are enrolled on Middlebury's campus this fall.
5. This data does not include the summer Language Schools or the Breadloaf School of English.

B. WHERE DO OUR STUDENTS COME FROM

IV. Entire Enrolled Student Body, Including Students Who Are Away From Campus

A. ENROLLMENT

By federal definitions, students who are studying away from campus are not counted in enrollment figures for national surveys. Section I of this student profile provides data consistent with these federal definitions. Though data is not typically published with entire enrollment data, in other words including students both on-campus as well as away/abroad, it may be useful, particularly internally, to view the data in this way. Therefore, the following section details these data.

2. Consistent with federal definitions, part-time seniors count as a third of an FTE.
3. These figures include 252 international students and eight are teaching assistants.
4. A total of 2,615 degree-seeking students and 34 non-degree seeking students are enrolled this fall.
5. This data does not include the summer Language Schools or the Breadloaf School of English.
