EXECUTIVE SUMMARY

This publication provides a comprehensive picture of Middlebury College's fall 2007 student body. As such, this profile is divided into several different parts. The sections include details on students enrolled on campus, students enrolled in study abroad programs affiliated with Middlebury, students enrolled in study away/abroad programs not affiliated with Middlebury, and totals for the entire enrolled student body respectively. Details on visiting undergraduate students as well as graduate students studying abroad in Middlebury programs are included as well.

All data is based on the fall enrollment census. Much of the information in Section I, which details on-campus student enrollment, is used for federal reporting which is based on federal definitions.

For convenience, the following are some quick comparisons and summary statistics:

GENERAL NOTES AND DEFINITIONS:

The following are some general notes and definitions to help clarify data in this profile:

1. By federal definition, a person included in the calculation for “US Citizen” is a US citizen, dual citizen, or permanent resident. Canadian students are international students. The National Center for Education Statistics defines and collects data through annual surveys in IPEDS, the Integrated Postsecondary Education Data System.
2. An on-campus enrolled student is one whose status is “active student (AS)”. An enrolled student in a Middlebury affiliated study abroad program is one whose status is “Leave Middlebury (LM)”. Similarly, an enrolled student in a non-Middlebury affiliated study away/abroad program is one whose status is “Leave non-Middlebury (LN)”. Entire enrollment simply includes students in all three of these categories.
3. Numbers of students in each class has been derived from the graduation year (grd_yr) parameter in BANNER.
4. Notes on individual tables, charts, and graphs are designed to add further clarification. For instance, though they are “enrolled” this fall, foreign exchange students have been extracted in many data in this profile as they are short-term visitors to the campus.
5. This profile does not include data from the summer Language Schools or the Breadloaf School of English.
6. Please feel free to contact Jane Kimble, Assistant Director of Institutional Research on x5351 (jkimble@middlebury.edu) with any questions or feedback.

I. Middlebury Campus

A. ENROLLMENT

Middlebury, like all colleges, is required by the federal government to report on fall enrollment statistics. These figures are reported annually and appear in college guidebooks and publications. For purposes of the federal government reports, all full-time and part-time students are counted, with the exception of students who are on leave (studying abroad or at other institutions). All students taking courses for credits must be reported, including exchange students. The fall enrollment census is taken each year at the end of add-drop and no later than October 15th by requirement of the federal government. The National Center for Education Statistics defines and collects data through annual surveys in IPEDS, the Integrated Post Secondary Education Data System.
