Mean WR SAT (3)								682	689	684	689	693

NOTES:

(1) Acceptance rate is the percentage of applicants offered admission at the college. A low acceptance rate is considered an indicator of quality since it shows that more students apply to the college than can be accommodated. Transfer applicants are not included.

(2) Yield rate is the percentage of students accepted by the college who enroll. For example, Middlebury accepted 17% of the 7984 applicants for September 2010 (1,375) and 43% of those students chose to enroll at Middlebury.

(3) SATs are reported for all students, regardless of whether or not the tests were used in making the admission decision.
