Comprehensive Picture of the Student Body

Office of Planning, Assessment, and Institutional Research
November, 2010

EXECUTIVE SUMMARY

This publication provides a comprehensive picture of Middlebury College's fall 2010 student body. As such, this profile is divided into several different parts. The sections include details on students enrolled on campus, students enrolled in study abroad programs affiliated with Middlebury, students enrolled in study away/abroad programs not affiliated with Middlebury, and totals for the entire enrolled student body respectively. Details on visiting undergraduate students as well as graduate students studying abroad in Middlebury programs are included as well.

All data is based on the fall enrollment census. Much of the information in Section I, which details on-campus student enrollment, is used for federal reporting and is based on federal definitions.

For convenience, the following are some quick comparisons and summary statistics:

Where Middlebury Undergraduate Students Are Studying This Fall	
On-Campus	2,532
Abroad in Middlebury Programs	143
Away/Abroad in non-Middlebury Programs	74
Grand Total, Headcount	2,749

There are four basic types of students enrolled either on-campus and away/abroad:

Fall 2010 Enrollment	On-Campus Undergraduate	Away/Abroad Undergraduate	Away/Abroad Graduate
Traditional (Degree-Seeking)	2,502	217	0

Male	1,251	89	26	39
Unknown	-----	-----	-----	3
Grand Total, Headcount	2,532	217	85	135

In terms of race/ethnicity, only domestic students are measured in this way. Furthermore, the race/ethnicity of students who are not seeking degrees, such as foreign exchange students, teacher's education students, faculty/staff enrolled for credit, and teaching assistants make up the "Other Students" counted below:

Middlebury Undergraduate Students by Race/Ethnicity	On-Campus	Away/Abroad
Asian American, non-Hispanic	140	23
Black/African American, non-Hispanic	58	5
Hispanic/Latino	154	18

GENERAL NOTES AND DEFINITIONS:

The following are some general notes and definitions to help clarify data in this student profile:

1. By federal definition, a person included in the calculation for “US Citizen” is a US citizen, dual citizen, or permanent resident. Canadian students are international students. The National Center for Education Statistics defines and collects data through annual surveys in IPEDS, the Integrated Postsecondary Education Data System.
2. An on-campus enrolled student is one whose status is “Active Student (AS)”. An enrolled student in a Middlebury affiliated study abroad program is one whose status is “Leave Middlebury (LM)”. Similarly, an enrolled student in a non-Middlebury affiliated study away/abroad program is one whose status is “Leave non-Middlebury (LN)”. Entire enrollment simply includes students in all three of these categories.
3. Numbers of students in each class has been derived from the graduation year (grd_yr) parameter in BANNER.
4. Notes on individual tables, charts, and graphs are designed to add further clarification. For instance, though they are “enrolled” this fall, foreign exchange students have been extracted in many data in this profile as they are short-term visitors to the campus.
5. This profile does not include data from the summer Language Schools or the Bread Loaf School of English.
6. Please feel free to contact Jane Kimble, Assistant Director of Institutional Research on x5351 (jkimble@middlebury.edu) with any questions or feedback.

I. Middlebury Campus

A. ENROLLMENT

Middlebury, like all colleges, is required by the federal government to report on fall enrollment statistics. These figures are reported annually and appear in college guidebooks and publications. For purposes of the federal government reports, all enrolled full-time and part-time students are counted, with the exception of students who are on leave (studying abroad or away at other institutions). All students taking courses for credits must be reported, including exchange students. The fall enrollment census is taken each year at the end of the add-drop period and no later than October 15th by requirement of the federal government. The National Center for Education Statistics defines and collects this data through annual surveys in IPEDS, the Integrated Post Secondary Education Data System.

Total Part-Time	27
Grand Total, Headcount	2,532
Total Full-Time Equivalent (FTE)	2,514

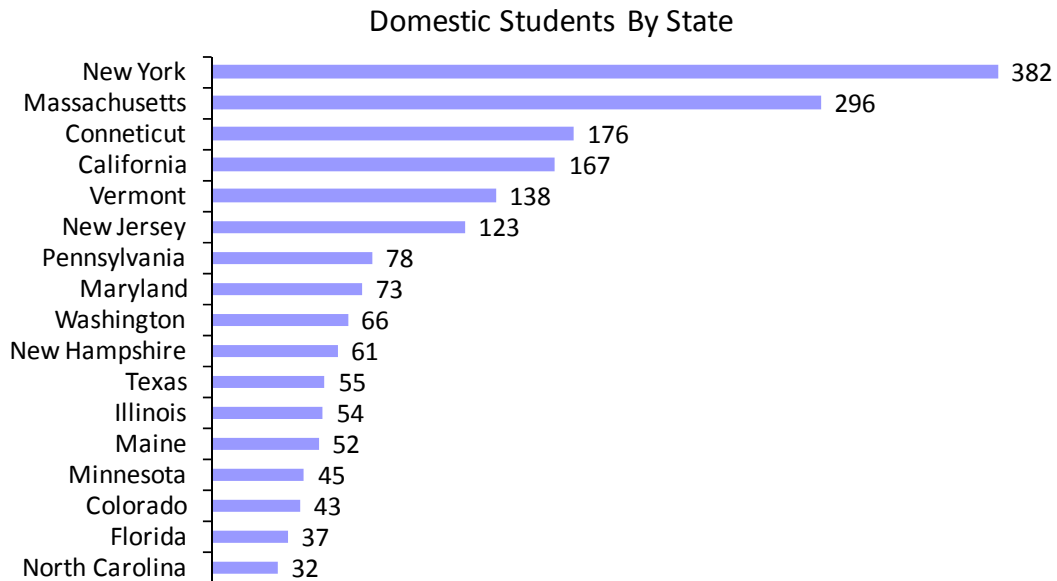

Notes:

1. By federal definition, a part-time student counts as a third of an FTE.
2. These figures include 262 international students. Twelve of these students are foreign exchange students (the thirteenth exchange student is a dual citizen and therefore counts as a United States citizen by federal definitions) and 7 are international teaching assistants.

3. By federal definitions, these figures do not include Middlebury students who are away from campus, studying away/abroad in either Middlebury or non-Middlebury programs.
4. A total of 2,502 degree-seeking students and 30 non-degree seeking students are enrolled on Middlebury’s campus this fall.
5. “Traditional Student” refers to a degree-seeking student, while “Non-Traditional Student” refers to a non-degree seeking student.
6. This data does not include the summer Language Schools or the Bread Loaf School of English.

B. WHERE DO OUR STUDENTS COME FROM

Middlebury students (who are not international students or non-traditional domestic students such as faculty/staff enrolled for credit, teacher’s education students, teaching assistants, or exchange students) come from all 52 states and territories. The following chart shows the states and territories from which the most students have come this fall.

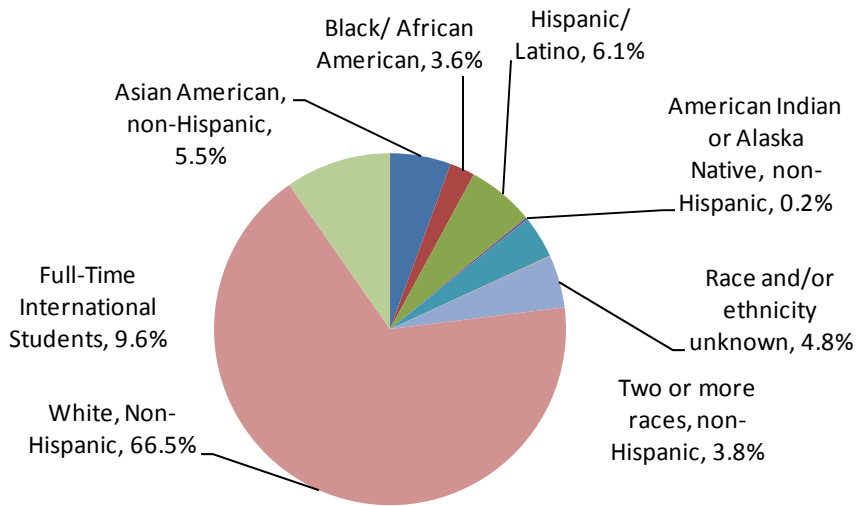

Note: This chart does not include foreign exchange or other international students or non-traditional, domestic students such as faculty/staff enrolled for credit, those in teacher’s education, teaching assistants, or exchange students.

As compared with the 2,532 students on campus this fall, approximately 18.0% are domestic students of color. The following table with chart shows the racial/ethnic composition of the domestic on-campus student body.

C. INTERNATIONAL STUDENTS

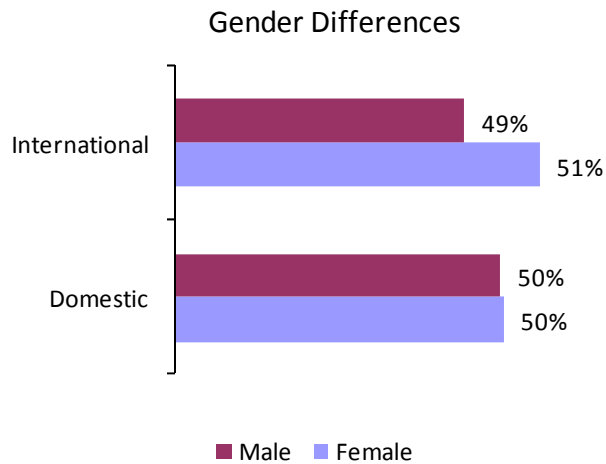

On campus this fall there are 243 full time, traditional international students (9.6% of the on-campus student body) with 71 countries represented. Countries with the most students include:

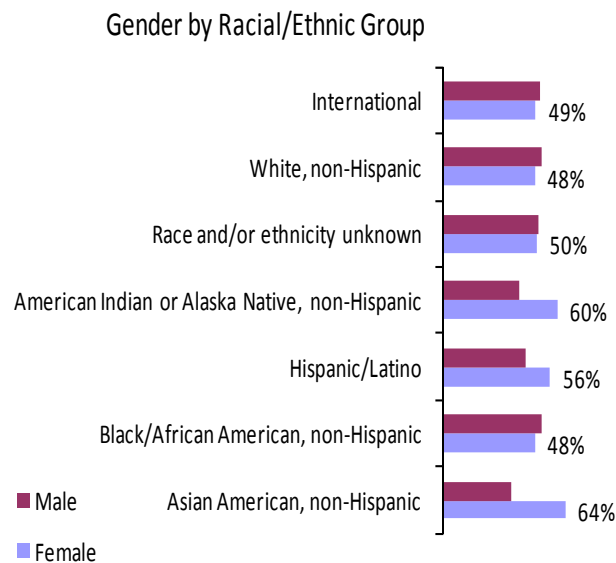

Note: By federal definitions, Middlebury is required to include Canadians as international students.

D. GENDER

There are small differences in the proportions of men and women in the on-campus student body based on citizenship.

Furthermore, there are differences in gender proportions among degree-seeking domestic students of color, domestic white students, and international students. Generally, there are more degree-seeking domestic women of color than men.

Note: Non-degree seeking students such as exchange students, faculty/staff enrolled for credit, teacher's education students, and teaching assistants are not included in this chart.

IV. Entire Enrolled Student Body, Including Students Who Are Away From Campus

A. ENROLLMENT

By federal definitions, students who are studying away from campus are not counted in enrollment figures for national surveys. Section I of this student profile provides data consistent with these federal definitions. Though data is not typically published with entire enrollment data, in other words including students both on-campus as well as those studying away/abroad, it may be useful, particularly internally, to view the data in this way. Therefore, the following section details these data.

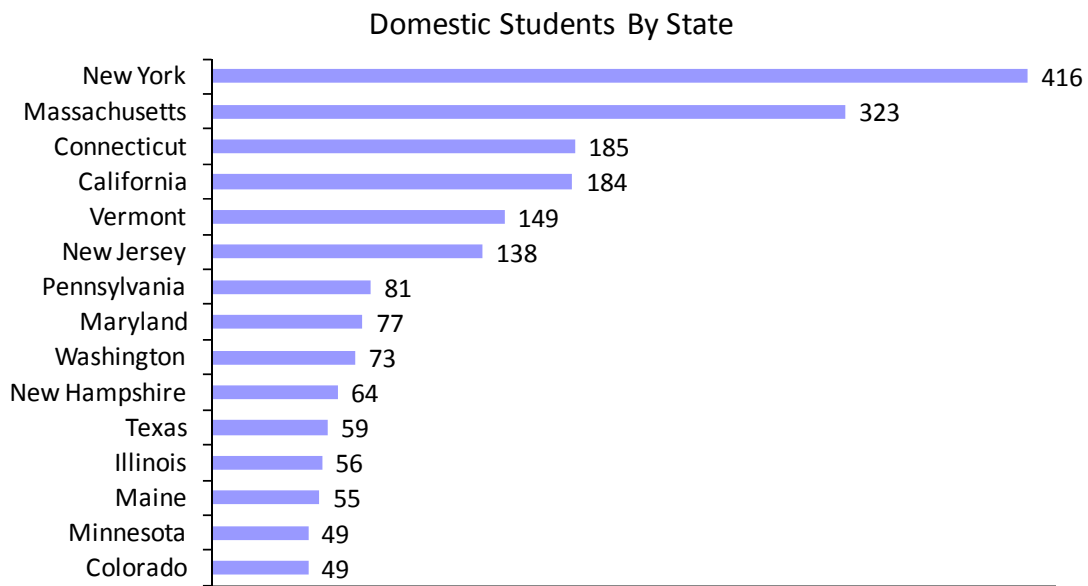

Full-Time	Fall 2010
Class of 2011	714
Class of 2012	734
Class of 2013	681
Class of 2014	577

Grand Total, Headcount	2,749

Notes:

1. **Students who are studying away/abroad are not counted by federal definitions. National surveys view enrollment data as it is displayed in Section I of this student profile.** The figures throughout Section IV include Middlebury students who are on campus, studying away from campus in a non-Middlebury program in the United States, and studying abroad in either Middlebury or non-Middlebury programs this fall.
2. Consistent with federal definitions, a part-time student counts as a third of an FTE.
3. These figures include 292 international students. Twelve of these students are foreign exchange students (the thirteenth exchange student is a dual citizen and therefore counts as a United States citizen by federal definitions) and 7 are international teaching assistants.
4. A total of 2719 degree-seeking students and 30 non-degree seeking students are enrolled this fall.
5. “Traditional Student” refers to a degree-seeking student, while “Non-Traditional Student” refers to a non-degree seeking student.
6. This data does not include the summer Language Schools or the Bread Loaf School of English.

B. WHERE DO OUR STUDENTS COME FROM

Middlebury students (who are not international students or non-traditional domestic students such as faculty/staff enrolled for credit, teacher’s education students, teaching assistants, or exchange students) come from all 52 states and territories. The following chart shows the states and territories from which the most students have come this fall.

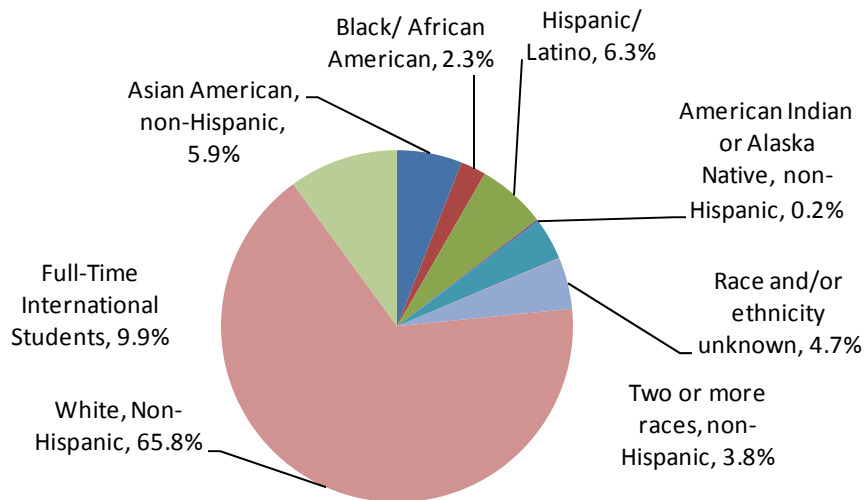

Note: This chart does not include foreign exchange or other international students. In addition, it does not include non-traditional students such as teaching assistants, visiting

students, faculty/staff enrolled for credit, exchange students, or those in teacher's education.

As compared with 2749 students enrolled this fall, approximately 18.5% are domestic students of color. The following table with chart shows the racial/ethnic composition of the entire Middlebury student body.
