Fall 2014 Student Profile

Comprehensive Picture of the Student Body

EXECUTIVE SUMMARY

This publication provides a comprehensive picture of Middlebury College’s fall 2014 student body. As such, this profile is divided into several different parts. The sections include details on students enrolled on campus, students enrolled in study abroad programs affiliated with Middlebury, students enrolled in study away/abroad programs not affiliated with Middlebury, and totals for the entire enrolled student body respectively. Details on visiting undergraduate students as well as graduate students studying abroad in Middlebury programs are included as well.

All data is based on the fall enrollment census. Much of the information in Section I, which details on-campus student enrollment, is used for federal reporting and is based on federal definitions.

For convenience, the following are some quick comparisons and summary statistics:

Where Middlebury Undergraduate Students Are Studying This Fall	
On-Campus	2,526
Abroad in Middlebury Programs	120
Away/Abroad in non-Middlebury Programs	118
Grand Total, Headcount	2,764

There are four basic types of students enrolled either on-campus and away/abroad:

Fall 2014 Enrollment	On-Campus Undergraduate	Away/Abroad Undergraduate	Away/Abroad Graduate

GENERAL NOTES AND DEFINITIONS:

The following are some general notes and definitions to help clarify data in this student profile:

1. By federal definition, a person included in the calculation for “U.S. Citizen” is a U.S. citizen, dual citizen, or permanent resident. Canadian students are international students. The National Center for Education Statistics defines and collects data through annual surveys in IPEDS, the Integrated Postsecondary Education Data System.
2. An on-campus enrolled student is one whose status is “Active Student (AS)”. An enrolled student in a Middlebury affiliated study abroad program is one whose status is “Leave Middlebury (LM)”. Similarly, an enrolled student in a non-Middlebury affiliated study away/abroad program is one whose status is “Leave non-Middlebury (LN)”. Entire enrollment simply includes students in all three of these categories.
3. Numbers of students in each class has been derived from the graduation year (grd_yr) parameter in BANNER.
4. Notes on individual tables, charts, and graphs are designed to add further clarification. For instance, though they are “enrolled” this fall, foreign exchange students have been extracted in many charts in this profile as they are short-term visitors to the campus.
5. This profile does not include data from the summer Language Schools, the Bread Loaf School of English, or the Monterey Institute of International Study.
6. Please feel free to contact Jane Kimble in Institutional Research on x5351 (jkimble@middlebury.edu) with any questions or feedback.

I. Middlebury Campus

A. ENROLLMENT

Middlebury, like all colleges, is required by the federal government to report on fall enrollment statistics. These figures are reported annually and appear in college guidebooks and publications. For purposes of the federal government reports, all enrolled full-time and part-time students are counted, with the exception of students who are on leave (studying abroad or away at other institutions). All students taking courses for credits must be reported, including exchange students. The fall enrollment census is taken each year at the end of the add-drop period and no later than October 15th by requirement of the federal government. The National Center for Education Statistics defines and collects these data through annual surveys in the Integrated Post-Secondary Education Data System (IPEDS).

1. By federal definition, a part-time student counts as a third of an FTE.
2. These figures include 271 international students. Thirteen of these students are foreign exchange students and 8 are international teaching assistants.
3. By federal definitions, these figures do not include Middlebury students who are away from campus, studying away/abroad in either Middlebury or non-Middlebury programs.
4. A total of 2,498 degree-seeking students and 28 non-degree seeking students are enrolled on Middlebury's campus this fall.
5. "Traditional Student" refers to a degree-seeking student, while "Non-Traditional Student" refers to a non-degree seeking student.
6. These data do not include the summer Language Schools, the Bread Loaf School of English, or the Monterey Institute of International Studies.

B. WHERE DO OUR STUDENTS COME FROM

Middlebury students (who are not international students or non-traditional domestic students such as faculty/staff enrolled for credit, teacher's education students, teaching assistants, or exchange students) come from 52 states and territories. The following chart shows the states and territories from which the most students have come this fall.

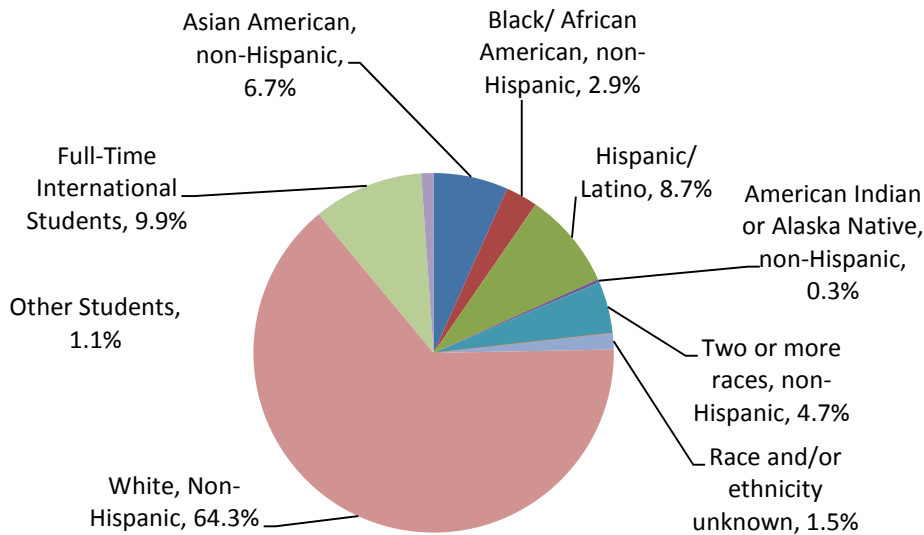

Note: This chart does not include foreign exchange or other international students or non-traditional, domestic students such as faculty/staff enrolled for credit, those in teacher's education, teaching assistants, or exchange students.

As compared with the 2,626 students on campus this fall, approximately 23% are domestic students of color. The following table with chart shows the racial/ethnic composition of the domestic on-campus student body.

Domestic Students by Race/Ethnicity with International Students

Note: Racial/ethnic breakouts are for domestic students only. The percentages are based on the total enrollment of 2526, which includes the international students. This chart includes “other students” who are non-traditional students such as faculty/staff enrolled for credit, visiting students, those in teacher’s education, exchange students, or teaching assistants.

C. INTERNATIONAL STUDENTS

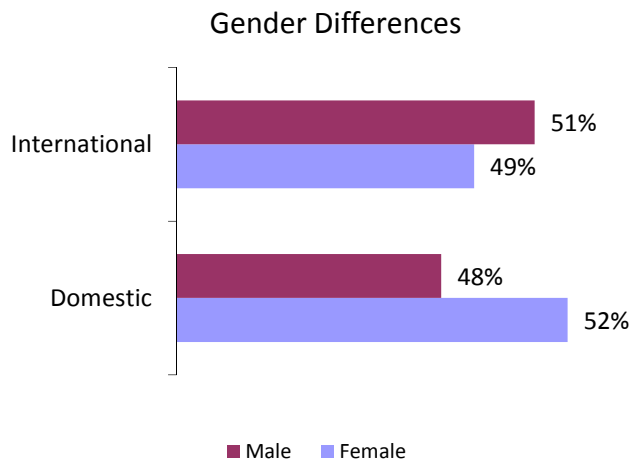

On campus this fall there are 250 full time, traditional international students (9.9% of the on-campus student body) with 74 countries represented. Countries with the most students include:

Note: By federal definitions, Middlebury is required to include Canadians as international students.

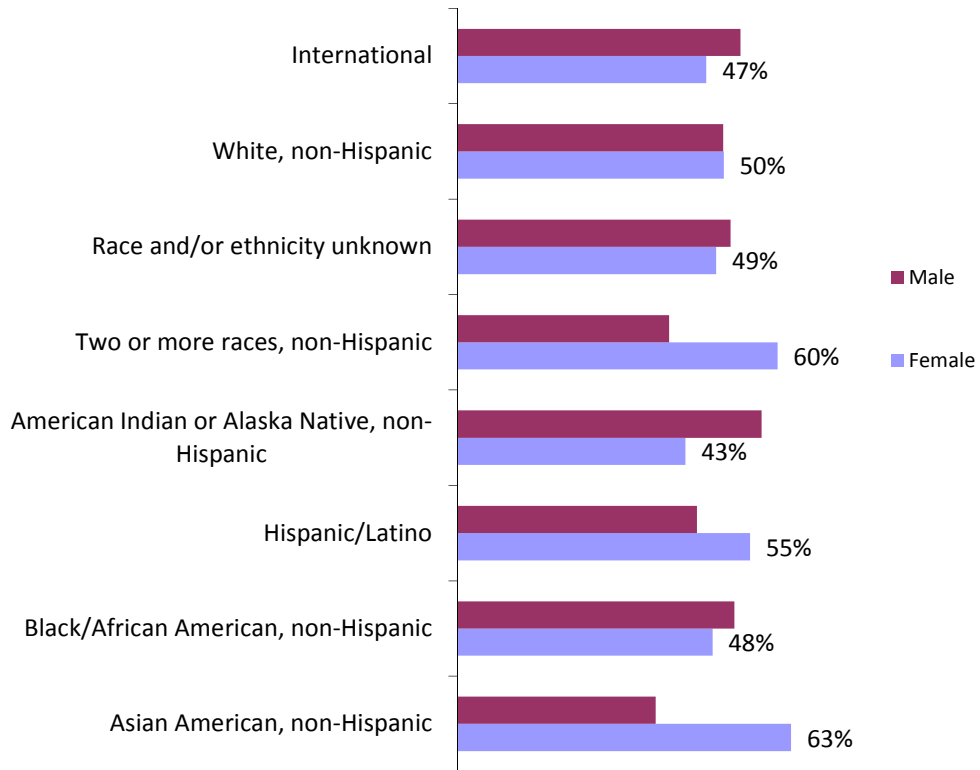

D. GENDER

There are small differences in the proportions of men and women in the on-campus student body based on citizenship.

However, there are differences in gender proportions among degree-seeking domestic students of color, domestic white students, and international students. Within some groups, such as Asian American, Hispanic/Latino, and Two or more races, there are more women than men.

Composition of Degree-Seeking Student Body by Gender and Racial/Ethnic Group

Note: Non-degree seeking students such as exchange students, faculty/staff enrolled for credit, teacher's education students, and teaching assistants are not included in this chart.

IV. Entire Enrolled Student Body, Including Students Who Are Away From Campus

A. ENROLLMENT

By federal definitions, students who are studying away from campus are not counted in enrollment figures for national surveys. Section I of this student profile provides data consistent with these federal definitions. Though data is not typically published with entire enrollment data, in other words including students both on-campus as well as those studying away/abroad, it may be useful, particularly internally, to view data in this way. Therefore, the following section details these data.

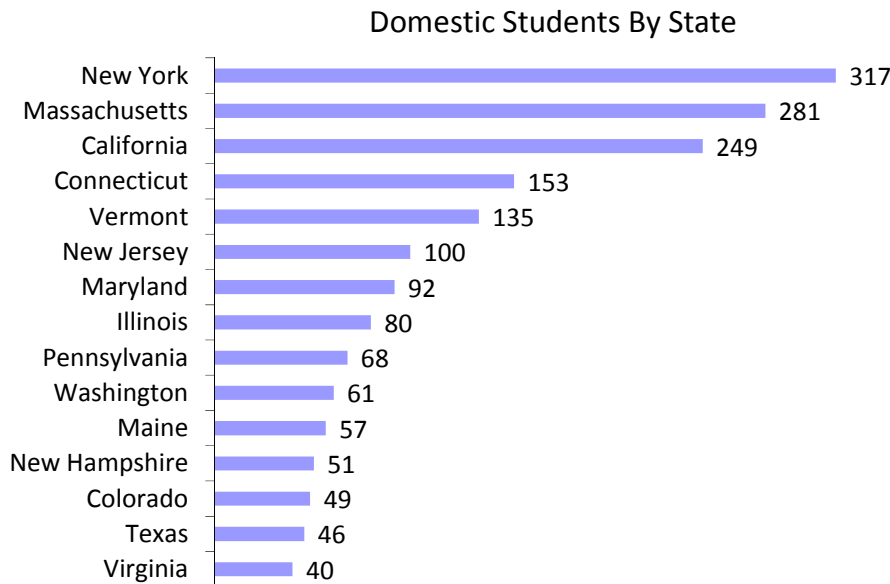

Full-Time	Fall 2014
Class of 2015	674
Class of 2016	752
Class of 2017	697
Class of 2018	580

Notes:

1. **Students who are studying away/abroad are not counted by federal definitions. National surveys view enrollment data as it is displayed in Section I of this student profile.** The figures throughout Section IV include Middlebury students who are on campus, studying away from campus in a non-Middlebury program in the United States, and studying away/abroad in either Middlebury or non-Middlebury programs this fall.
2. Consistent with federal definitions, a part-time student counts as a third of an FTE.
3. These figures includes 295 international students. Thirteen of these students are foreign exchange students and 8 are international teaching assistants.
4. A total of 2,736 degree-seeking students and 28 non-degree seeking students are enrolled this fall.
5. “Traditional Student” refers to a degree-seeking student, while “Non-Traditional Student” refers to a non-degree seeking student.
6. These data do not include the summer Language Schools, the Bread Loaf School of English, or the Monterey Institute of International Studies.

B. WHERE DO OUR STUDENTS COME FROM

Middlebury students (who are not international students or non-traditional domestic students such as faculty/staff enrolled for credit, teacher’s education students, teaching assistants, or exchange students) come from 52 states and territories.
