# SAFE COMPUTING

**Subject:** Anti-Phishing Computing Practices

**To:** Computer Users

**Date:** April 2, 2015

**From:** Information Security

- Know how to spot a phishing attack (<http://go.middlebury.edu/phished>).
- Stay educated on current phishing attacks and scams ( <http://phishing.org> ).

- Delete suspect emails or forward them to [phishing@middlebury.edu](mailto:phishing@middlebury.edu) .
- If you have fallen for a phishing attack, change your password immediately; then call 802-443-2200.

- Read all emails carefully. Watch for unusual grammar and content.
- If you cannot verify the sender of an email don't click on links or open attachments.
- Hover over links in an email to verify their destination.
