Position Title: First Year Counselor (“FYC”)
Department Name: Office of the Dean of Students

Primary Purpose:

First Year Counselors (FYC) at Middlebury College serve as mentors to the First-Year students in their Commons. Specifically, they are expected to foster the intellectual and personal development of first-year students and serve as the bridge that connects these first-year students to other support services on campus. FYCs are expected to forge personal connections with the residents on their hall, be in regular contact with their CRD, and communicate with the Commons team about student issues. FYCs must have a concrete understanding of the network of available resources on campus and a willingness to channel students to those resources.

Each student staff member must be a solid, positive role model – creating, facilitating, and maintaining a living and learning atmosphere that is conducive for individual student growth, as well as community development, within the residential unit. A proactive approach to working within a residential community is of foremost and critical importance. Building positive, healthy relationships with one’s residents from day one is key to this proactive approach. While it is the responsibility of student staff members to respond to problems as they arise, the staff member must first create an atmosphere of community in which individuals respect each other’s rights, property, and values.
