Dear students and families,

We continue to monitor the weather for tomorrow, and it’s going to be a winter wonderland! We recognize however that this may impact your arrival plans and have compiled some helpful information to assist you:

- We recommend you monitor weather and road conditions. **Local forecast information can be found [HERE](#) and road conditions reports [HERE](#).**

- The weather is presently forecast to deteriorate as the day goes on. **We recommend you plan to arrive in the morning if possible.** Our Welcome Center will be open at 9:00am and remain open until 5:00pm.

- If you’re considering staying in the area tonight or tomorrow night and **haven’t yet arranged your accommodations**, a list of options is located [HERE](#).

- **If you’ll be arriving after 5pm tomorrow**, don’t worry! We have a plan.
  
  - During business hours (9-5pm), you can reach us at 802.443.3103 to let us know you’ll be arriving late. We’ll make arrangements to have you met upon arrival, gain access to your room, and have your questions answered.
  
  - After business hours, call our Department of Public Safety at 802.443.5133. They’ll connect you with an on call member of our Residential Life staff who will have all the information needed to assist you and will see that you’re met upon arrival.

- **Late breaking schedule changes** (which we’ll work hard to avoid!) will be published in the “Important Updates” section of our Feb Orientation app. Instructions on obtaining the app are found [HERE](#).

As always, feel free to contact us at [orientation@middlebury.edu](mailto:orientation@middlebury.edu) or, during business hours, at 802.443.3103.

Wishing you safe travels,

The Feb Orientation team
