

APPENDIX F

Final Evaluation by the Cooperating Teacher

Please complete an evaluation of the student that covers the practices throughout the “professional semester.” There is no set form for this evaluation but here are some guidelines to consider:

Label the document: *Final Evaluation: Professional Semester*

Include: Your name and title (Supervising/Cooperating Teacher), school, grade level/dept.

Student's name

Date

We ask that you organize your remarks to include statements regarding the student-teacher's:

- Content expertise,
- Professional Knowledge/Competence (methods, practices, pedagogy, planning),
- Ability to successfully work with and engage a broad range of learners in his or her classroom,
- Ability to work with and engage the range of expertise of colleagues in the building,
- Advocacy of students—this might include discussion of things the student teacher might have done outside the normal classroom routine (clubs, sports, after school programs, theatre, etc.),
- His or her ability to maintain clear, ethical standards for him or herself as well as the students in the classroom; and
- Any areas of concern and/or targeted areas for future growth.

In the past, most of these evaluations have been 2-3 typed pages in length.

Please feel free to contact us should you have any questions.
