

Spring 2011 Thesis Presentations

Biology, Neuroscience, ES-Conservation Biology
12:30-1:20 p.m., MBH 220

Bring your lunch, refreshments will be provided

Week 1

Monday, April 25

W. Tyler Prince • Neuroscience

Effects of prolactin on neurogenesis in the dentate gyrus of adult male rats

Leanne M. Shulman • Neuroscience

Effects of Sexual Experience on Spatial Memory and Behavioral Flexibility in Male Rats

Wednesday, April 27

Laura Budd • Biology

Does Scale Matter for the Characterization and Management of a South African Riparian Ecosystem

Meghan Blumstein • ES-Con Bio/Biology

Modeling Forest Regeneration in Valley Forge National Park

Week 2

Monday, May 2

Julia Paige Stern • Biology

Effects of social interactions with familiar or unfamiliar females on the survival of newly proliferated cells in the dentate gyrus of adult male rats

Jennifer Lindsey • Biology

Effect of meiotic arrest on vitrified immature oocyte quality

Wednesday, May 4

Connor M. Wood • ES-Con Bio/Biology

Assessing landscape connectivity: A sensitivity analysis of Circuitscape applied to the northern Green Mountains

Virginia Shannon • ES-Con Bio/Biology

Restoring Atlantic salmon to Lake Champlain

Friday, May 6

Lauren Sanchez • ES-Con Bio/Biology

Carbon Dynamics at Harvard Forest: Ecological Responses to Changes in the Growing Season

Week 3

Monday, May 9

Anne Runkel • Biology

Transcriptional Analysis of A-Kinase Anchoring Protein 9: the genetics of infertility

Gabriel W.M. Lane • Biology

The basis of differential herbivory tolerance in a forest-edge herb

Sponsored by the Middlebury College Department of Biology
and Program in Neuroscience
