

ENGL department cross-listing form:

1. Please provide a brief course description and preliminary reading list.
2. How will your course contribute to the study of literature in terms of theory, history, and/or methodology?
3. How do you see your course contributing to the English Department's existing curriculum? For example, what are courses that you see yours complementing and why? What gaps in our curriculum do you see your course filling? Please consider the entire list of departmental course offerings, and not just the offerings for a particular year.
