

Middlebury College

New Student Orientation

Hello!

The New Student Orientation Team is excited that you'll be coming to Middlebury next spring. As a Feb, this is the beginning of your new independence, possibilities, and personal growth. We are thrilled to support you!

Pre-arrival Communication

Beginning in mid-October, you'll start hearing from our team with information about your [arrival to campus](#) and how to successfully transition into Middlebury.

You'll use your Middlebury email and password to access many student online platforms. Check this account often, as this is the only email address that will receive future communications. If you need help setting up your account, [email the College Helpdesk](#) for technical support or [visit their website](#).

Your New Student Onboarding Course

Also in mid-October, you'll get access to your [New Student Onboarding Course](#). Then you can begin to complete important tasks, such as course registration, housing forms, and immunization records.

If you will not be able to complete this required course for an extraordinary reason (you will not have access to the internet for extended periods before you arrive in February, for example), please let us know [on this form](#). We'll determine if you need an alternative plan.

See you soon,

Erin Morrison

(she/her/her)

Assistant Director, First-Year Experience for Orientation

PS: Remember to set up your Middlebury email and password! [Email the Helpdesk](#) for technical support or [visit their website](#).
