

## Biology Courses 2026-2027

Fall 2026	Winter 2027	Spring 2027
BIOL 140 Ecology and Evolution	BIOL 318 Plant Molecular Physiology (with lab)	BIOL 140 Ecology and Evolution
BIOL 145 Cell Biology and Genetics	BIOL 330 Microbial Pathogenesis	BIOL 145 Cell Biology and Genetics
BIOL 202 Comparative Vertebrate Anatomy & Evolution	BIOL 371 Advanced Field Biology	BIOL 205 Ornithology
BIOL 203 Biology of Plants		BIOL 211 Biostatistics
BIOL 204 Entomology		BIOL 217 Evolutionary Biology
BIOL 211 Biostatistics		BIOL/GSFS 219 Microbes and Social (In)equity
BIOL/ENVS 248 Human Toxicology		BIOL 230 Global Change Biology
BIOL 282 Botanical Illustration		BIOL 310 Microbiology
BIOL 304 Aquatic Ecology		BIOL 314 Molecular Genetics
BIOL 305 Developmental Biology		BIOL 323 Plant Community Ecology (5 CW seats)
BIOL 314 Molecular Genetics		BIOL 333 Receptor Biology (CW)
BIOL 325 Genomics		BIOL 376 Sweet Biology
BIOL 345 Applied Bioinformatics		BIOL 392 Conservation Biology (CW)
BIOL 300 Advanced Topics in Immunology		*BIOL 440 Human Microbiome
BIOL 499 Graduate Fellowship Writing in the Life Sciences (half-credit course, non-biology elective)		BIOL 450 Topics in Reproduction

\*New courses, pending approval by Curriculum Committee
