

Master of Arts in Nonproliferation and Terrorism Studies

Middlebury Institute
of International Studies
at Monterey

< Kyle Pilutti

Alumna

Where did you earn your undergraduate degree?

I have BA degrees in humanities and Arabic with a minor in mathematics from Michigan State University.

Why did you choose the Middlebury Institute?

The Institute program allowed me to study nonproliferation and terrorism studies while still continuing with my Arabic studies.

What made the Institute a special experience for you?

The Institute's exemplary faculty and far-reaching connections are what made my experiences there amazing.

What are you doing now?

I am a foreign affairs specialist at the National Nuclear Security Administration.

NONPROLIFERATION AND TERRORISM STUDIES (NPTS)

Four Semesters In Person

Launch your career in global security through a unique focus on addressing the challenges posed by terrorism and weapons of mass destruction (WMD). This four-semester master's is specifically designed to give you professional experience before you graduate.

THE MIDDLEBURY INSTITUTE ADVANTAGE

Our faculty, courses, research centers, and initiatives enhance your education with opportunities for paid research assistantships, hosted talks with a variety of leading experts, and other events.

- The James Martin Center for Nonproliferation Studies (CNS) is the largest NGO in the world devoted to curbing the spread of nuclear, biological, and chemical weapons.
- The Center on Terrorism, Extremism, and Counterterrorism (CTEC) conducts in-depth research to provide organizations with an understanding of and responses to terrorism threats.
- Initiatives in cybersecurity, U.S.-Russia relations, and more are part of the program.

CAREER OUTCOMES

Our graduates are in high demand in international organizations, government agencies, NGOs, and the private sector, including the intelligence community, major banks, and tech companies.

CURRICULUM

Build your expertise in these areas:

- Policy tools for combating terrorism
- Scientific principles and technologies behind WMD
- Arms control and nonproliferation negotiations
- Open source intelligence (OSINT)
- Cybersecurity
- Financial investigation and compliance
- Area studies and a second language

ADDITIONAL PROGRAM OPTIONS

STEM Designation

The NPTS program is designated as a STEM (science, technology, engineering, and mathematics) degree, which expands career opportunities for international students and scholarship opportunities for U.S. students.

Joint BA/MA

Earn a Bachelor of Arts in International Policy and a Master of Arts from the Middlebury Institute in just three years through this transfer program.

Certificates

- Nonproliferation Studies
- Terrorism Studies
- Financial Crime Management (degree students can take this as a specialization)

Accelerated Entry and Advanced Entry

Students with relevant graduate-level coursework and/or work experience may be able to complete the degree in two or three semesters.

FACULTY

Our faculty are regularly featured in the media for their groundbreaking work. They are actively engaged in scholarly and policy-oriented research, communicating with government officials, participating in international diplomacy, and developing new tools for monitoring threats. They bring a genuine commitment to your success and become mentors and colleagues.

SCHOLARSHIPS

We offer a variety of resources to make your program more affordable, including merit, need-based, partner, and external scholarships for both U.S. and international students. Your personal enrollment advisor is available to help you think through financing this important investment in your career development. Visit go.miiis.edu/scholarships for details.
