

The background is a solid dark green. In the top-left, top-right, and bottom-left corners, there are delicate floral and leafy branch illustrations in a light beige or cream color. These decorations include various types of leaves, some with veins, and small clusters of berries or buds.

25TH ANNIVERSARY

*Friends of International
Students*

April 14th- 6:30pm-8pm

WILSON HALL

I have loved my connections with
Middlebury's international students
- the thoughtful conversations and
shared experiences have been rich
and rewarding. I hope the program is
as meaningful for the students as it is
for the hosts!

Our lives have been
blessed and forever
enriched by our
relationships with our
students; we love them so
much.

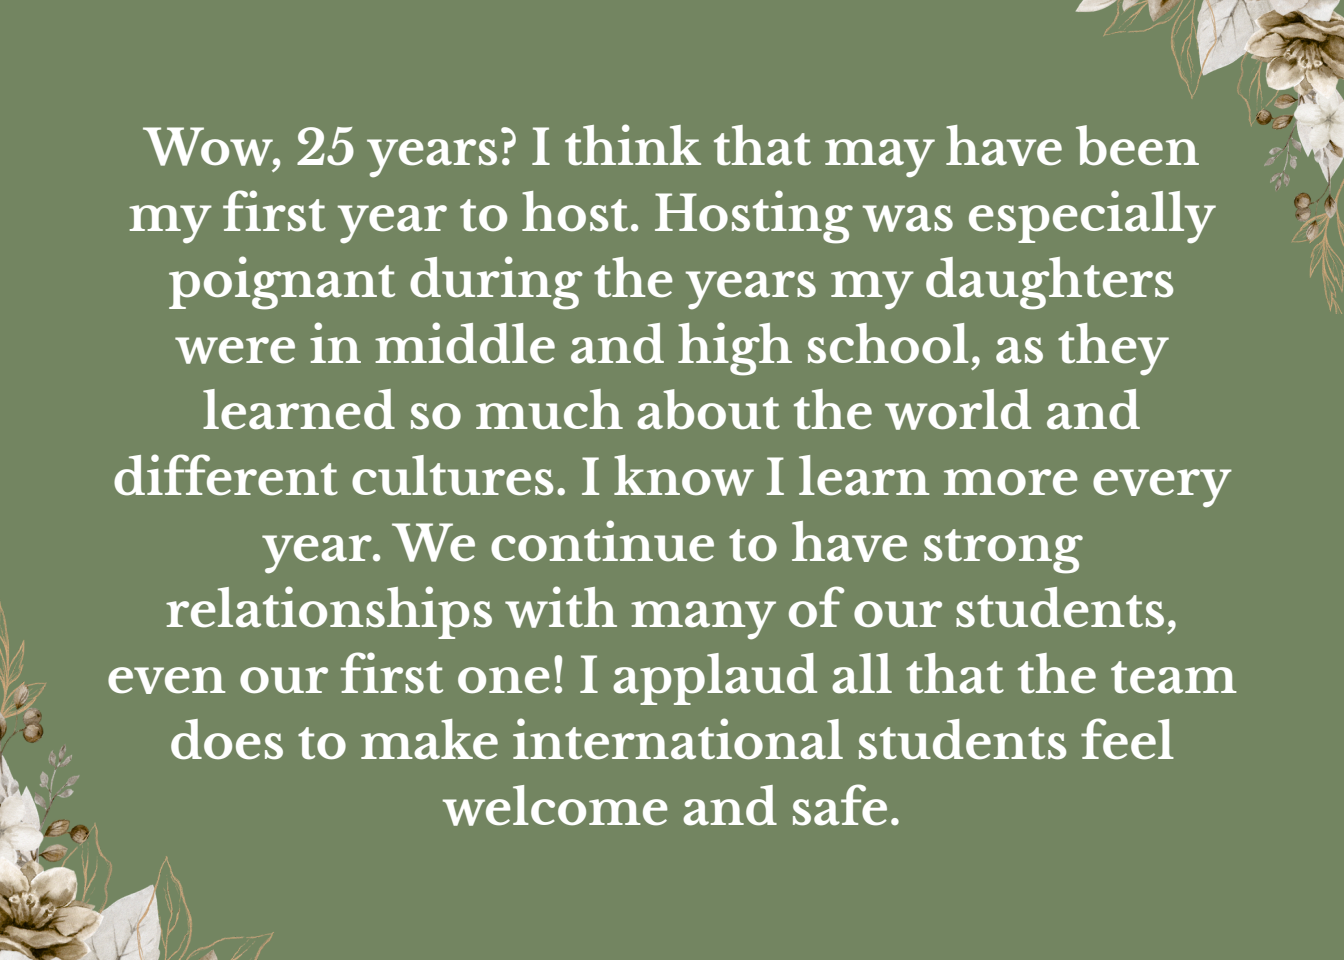

We have found each student
a precious gift and a window
into their world. Thank you.

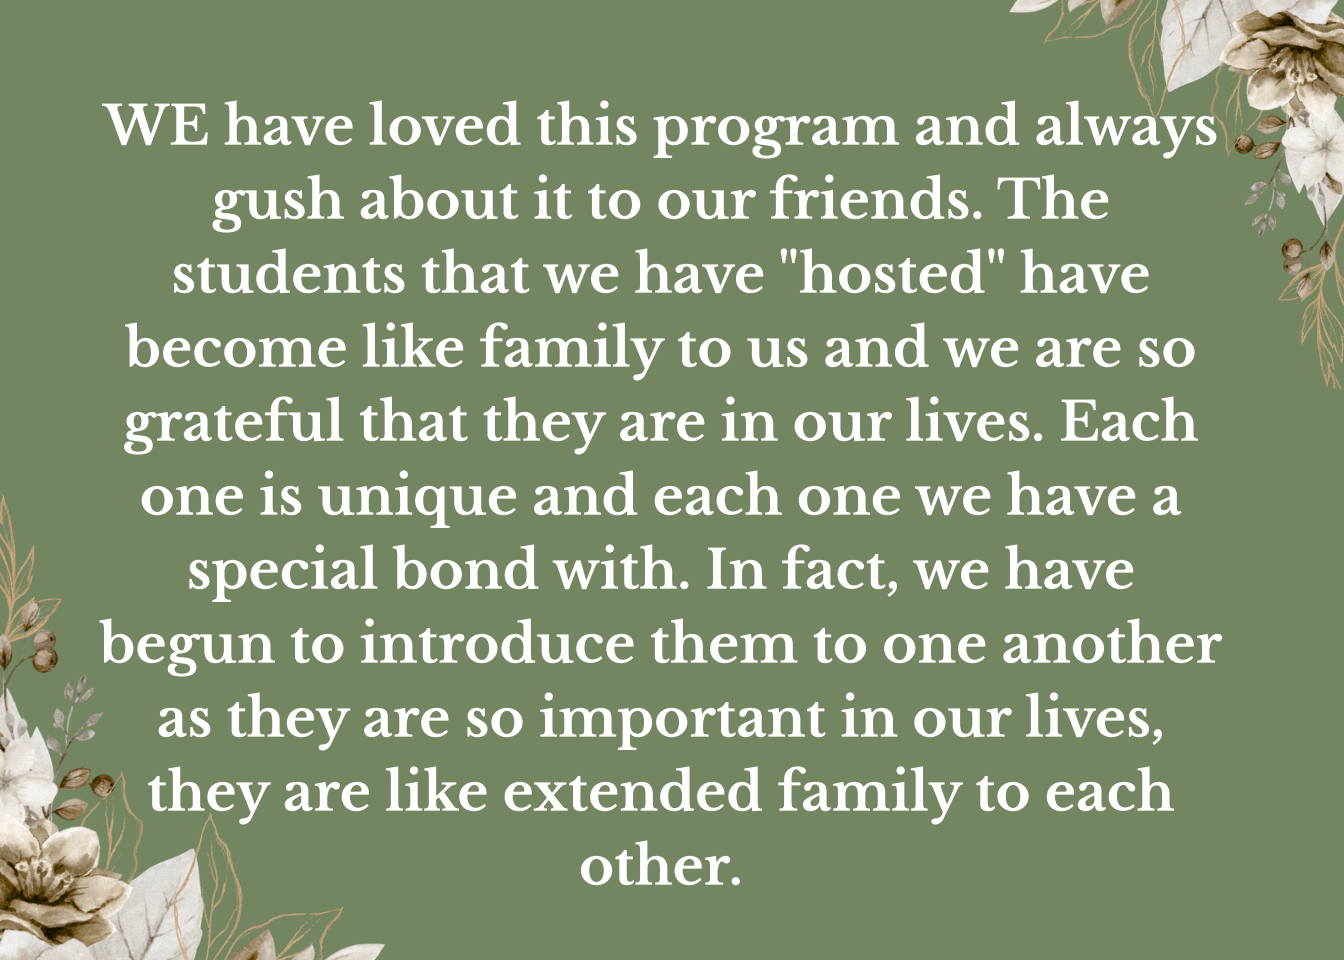

Wow, 25 years? I think that may have been my first year to host. Hosting was especially poignant during the years my daughters were in middle and high school, as they learned so much about the world and different cultures. I know I learn more every year. We continue to have strong relationships with many of our students, even our first one! I applaud all that the team does to make international students feel welcome and safe.

The image features a solid olive green background. In the top right corner, there is a decorative arrangement of light-colored flowers and thin, brown, leafless branches. Similarly, in the bottom left corner, there are more light-colored flowers and thin, brown, leafless branches. The text is centered and written in a white, serif font. It consists of a single paragraph that reads: "WE have loved this program and always gush about it to our friends. The students that we have "hosted" have become like family to us and we are so grateful that they are in our lives. Each one is unique and each one we have a special bond with. In fact, we have begun to introduce them to one another as they are so important in our lives, they are like extended family to each other." The text is arranged in ten lines, with the first line starting with a capital 'W' and the last line ending with a period.

WE have loved this program and always
gush about it to our friends. The
students that we have "hosted" have
become like family to us and we are so
grateful that they are in our lives. Each
one is unique and each one we have a
special bond with. In fact, we have
begun to introduce them to one another
as they are so important in our lives,
they are like extended family to each
other.

We hosted several students
over the past years and we are
still in touch with all of them.

It is a very enriching and
rewarding experience to get to
know young adults, their
country and
customs/traditions from all
over the world.

We have so enjoyed
connecting with our students
and are so impressed with
their resilience, positivity and
maturity! What a fantastic
program this is.

We are so grateful to have
our 2 FIS friends. Our
kiddos are learning about
the world and realizing
that there's so much
beyond our town, state,
and country to explore!

It's been great so far. Our
host son is a wonderful
young man, and we're
honored to be matched
with him.
