

# Middlebury C.V. Starr Schools Abroad

2020-21

# THESE ARE THE EXPERIENCES THAT MAKE MIDDLEBURY PROGRAMS DIFFERENT.

## IMMERSION IN LANGUAGE

**AND CULTURE** Living with the people of your host country.

## AUTHENTIC ACADEMIC

**OPPORTUNITY** Adapting to the local educational approach.

## GUIDED INDEPENDENCE

Engaging with communities, taking on internships, and making personal discoveries that can last a lifetime.

Photos taken by students during their study abroad experiences, from top left: England, Uruguay, Spain, Chile, Italy, Germany, India, Cameroon, and Morocco.

## IMMERSION IN LANGUAGE AND CULTURE

The Language Pledge®, pioneered by Middlebury's summer Language Schools, is a cornerstone of immersive language study and a key part of our study abroad programs. When students sign it, they pledge to speak only the language of their host country while there. Exceptions exist, but they are few.

By signing the pledge, students embrace both the challenge and authentic experience of a study abroad program in every respect—academic, social, and even professional when they undertake internships. Sticking to it requires self-discipline, creativity, fearlessness in the face of mistakes, and a sense of

humor. The reward is rapid progress in gaining proficiency and self-confidence in language learning.

Many of our students major in areas other than foreign languages, yet all are committed to linguistic development and cultural immersion.

**"Middlebury is about as serious as it gets in terms of practicing French, and the same goes for the dedication of the students."**

—Connor Rockett, Bowdoin College,  
Paris, France

## AUTHENTIC ACADEMIC OPPORTUNITY

With a few exceptions, courses are taught in the host country's language and conform to its educational approach. Universities in most other countries expect students to exercise a high degree of self-determination in their learning, and courses therefore may have a

different structure than U.S. students are used to. Students adjust to a new teaching style and way of learning, which is an education in itself. On-site Middlebury staff are there to help ease transitions as students navigate university systems and policies.

**"The academics were incredible. The tutorial system was a unique academic experience, and the library resources were unlike anything I'll ever have access to again."**

—Martha Langford, Middlebury College, Oxford, England

**"Being in class at a local university, I made Cameroonian friends, and I regularly participated in social events with them and with my host brothers."**

—Gregory Treiman, Middlebury College, Yaoundé, Cameroon

## GUIDED INDEPENDENCE

An important part of the Middlebury study abroad experience is helping students discover their interests in a new place—engaging with their community, exploring culture and history, and making personal connections. Internships and extracurricular activities can further understanding of the host culture and help students gain professional experience and boost language proficiency and make local connections. On-site staff help

connect students to activities, internships, and research projects tailored to their interests. Past students have been involved with the following:

Museums and galleries	Education
Theater companies	Community sports teams
Media and entertainment	University choirs
Environmental organizations	Governmental agencies
Research organizations	Health care

**“Because the program is more hands off and Córdoba is more isolated and less international than the bigger cities, we were able to better integrate with the locals.”**

—Anna Omizo, Middlebury College, Córdoba, Spain

**“The Middlebury program will give you the language ability to make as many local friends and connections as you want—but it’s up to you to actually meet people and make that happen.”**

—Shaheen Bharwani, Middlebury College, Rabat, Morocco

# MIDDLEBURY SUMMER PROGRAMS

## LANGUAGE SCHOOLS

Middlebury has led the world in full-immersion language studies since the launch of its first summer program in 1915. Today Middlebury Language Schools offer seven- and eight-week summer sessions from beginner to advanced levels in 11 languages. Middlebury also offers graduate programs in Vermont and abroad; these programs can be completed in 15 months or in four six-week summers.

The Middlebury Language Schools prepare students and teachers, scholars and artists, entrepreneurs and political leaders every summer to achieve their language goals and so much more, offering a year of college-level language learning (9-12 semester hours of credit) in one intensive summer. Before going abroad, students can gain the language skills and confidence necessary to function more independently. When returning from abroad, students can further their study of languages or begin graduate work.

All of our students pledge to communicate only in their language of study for their entire time in the program. With the Language Pledge®, students are immersed in language 24/7, enabling them to make remarkable progress in their studies. They are surrounded by world-class faculty who will help and support them both in and out of the classroom, joining them for meals and cocurricular in-language activities that enhance their cultural and contextual understanding.

Need-based financial aid and merit-based fellowships are available.

## SCHOOL OF THE ENVIRONMENT

The Middlebury School of the Environment is a six-week summer environmental studies and leadership training program in Yunnan, the most biologically and ethnically diverse province in China. Students take three courses investigating community-based sustainability initiatives in the rural and urban contexts of Dali and Kunming.

Nationally recognized environmental faculty and mentors lead the interdisciplinary courses both in and out of the classroom. Students participate in leadership training workshops and field experiences to build a toolkit of leadership skills. In addition, students participate in a Mandarin workshop during the session. The program awards three Middlebury units of credit (equivalent to nine semester hours of credit), and need- and merit-based financial aid is available.

## MUSEUM STUDIES IN OXFORD

Middlebury Museum Studies in Oxford features two credit-bearing courses with weekly seminars and lectures, an intensive week of experiential learning at a local museum, special tours of Oxford's renowned museums and archives, and field trips to London and surrounding sites. Students live and study in the heart of the city of Oxford, with access to the Bodleian Library system. They gain an unparalleled insight into the structure, management, and activities of museums as well as a critical introduction to the unique British approach to historical preservation.

Need-based financial aid is available.
